

# MEET CLARE

I am not alone!

*Please note: Clare is based on a real person who attended a course at Mirus Australia. Thank you for inspiring us "Clare."*

Please meet Clare. Clare's been an RN at her facility for over 6 years. She loves the residents and she knows them very well. She is kind, caring and diligent with her every day tasks. So much so, that she's been asked to step into an ACFI coordinator role. Clare's always one for a challenge so she's dived right in but is really feeling the pressure as the only coordinator onsite.

Driving the ACFI process can be overwhelming at the best of times and she knows she can't do it alone. So every day, Clare gets out there to speak to her team about the residents they care for. And every day, she shows her team how their input goes a long way toward funding care that the residents need. Clare's efforts are paying off as her team become more aware of changing care needs.

She goes home knowing that she's made a difference in her own way and that she's not so alone after all.

**Strength in numbers.  
Reinforce knowledge,  
reduce costs + reach  
your workforce for only  
5 minutes a day!**

# MIRUS MICRO

Reach your workforce for only 5 minutes a day!

100% remote learning platform

Revenue, Admissions, Workforce Management content expertise by Mirus Australia

## RAW Series:\*

Revenue Management

- Assess knowledge gaps with an initial assessment
- See improvements in knowledge across a 3 week campaign (3 questions per day)
- Case scenario questions test knowledge on themes:
  - Understand your role in delivering assessed care needs
  - Understand the link between clinical documentation and ACFI funding
  - Learn what observations may indicate a change in resident care needs
  - Understand your role in documenting and reporting changing care needs
  - Learn what documentation is required and best practice documentation principles across the 3 ACFI domains

\*RAW: Revenue Management, Admissions Management and Workforce Management for financial sustainability in aged care
